

TOP SECRET

27 July 1966

MEMORANDUM FOR: 

25X1A

I have reviewed the JIRG Report on a comma and period basis, as you requested, and most of my thoughts are shown in the marked up copy attached. There are also comments about the general tone and organization of the Report, which I have included in remarks here. As you are aware, I am completely opposed to some of the recommendations, and I have spelled out some details regarding this here also.
